

## WHAT UNCLE SAM SAID TO JAPAN

CORRESPONDENCE AS TO HAWAII MADE PUBLIC.

**Formal Protest Was Filed—Annexation of the Islands by the United States Is Displeasing to the Mikado's Statement—Deny That They Have Designs on the Country**

Washington, July 6.—The formal protest of Japan against the annexation of Hawaii to the United States became available Monday. The first letter on the subject was dated June 15, and was the inquiry of the Japanese minister of Secretary Sherman who were the facts regarding the rumored treaty of annexation.

To this Secretary Sherman replied as follows:

"Department of State, Washington, June 16, 1897.—Sir: Replying to your note of the 15th inst., just received, I have to say that the governments of Hawaii and the United States, by their duly authorized representatives have signed a treaty annexing the Hawaiian Islands to this country. This has been done in pursuance of the policy long since adopted by the United States. As to your inquiry as to the provisions made therein concerning treaties which may be in existence between Japan and the president of the Hawaiian government, my understanding is that the government of the United States does not take upon itself any obligations of the Hawaiian government arising from treaties of conventions made by it with other governments. It is believed that there is nothing in the proposed treaty prejudicial to the rights of Japan, and certainly the United States has no disposition to disturb the friendly relations which have long existed between the government of Japan and this country. Accept, Mr. Minister, the renewed assurance of my highest consideration.

JOHN SHERMAN.  
"To Mr. Toru Hoshi, etc., etc."

Minister Hoshi then submitted Japan's protest, as follows:

"Legation of Japan, Washington, June 19, 1897.—Sir: Referring to the correspondence which has passed between us regarding the proposed annexation of the Hawaiian Islands to the United States, I have the honor to inform you that, having communicated with my government upon the subject, I am now in receipt of instructions from his imperial majesty's minister of foreign affairs in relation thereto.

"I have now the honor to inform you that I am instructed by his imperial majesty's government to formally protest against the proposed annexation of the Hawaiian Islands to the United States. This protest is made for the following reasons:

"1. That the maintenance of the status quo of Hawaii is essential to the good understanding of the power which have interests in the Pacific.

"2. The annexation of Hawaii would tend to endanger the residential, commercial and industrial rights of Japanese subjects in Hawaii secured to them by treaty, and by the constitution and laws of that country.

"3. Such annexation might lead to the postponement by Hawaii of the settlement of claims and liabilities already existing in favor of Japan under treaty stipulations.

"With reference to the mischievous suggestion or report which has been industriously circulated in this country and elsewhere, that Japan has designs against the integrity of sovereignty of Hawaii, I am further instructed by the imperial government to state most emphatically and unequivocally that Japan has not now and never has had such designs, or designs of any kind whatever against Hawaii.

"Permit me to add in conclusion, Mr. Secretary, that in making this protest and in asking full and careful consideration for it, the imperial government is actuated by what they regard as an imperative duty and not in the remotest degree by a desire to embarrass the United States. They prize most highly the cordial relations which have always existed between our countries and they confidently trust that their representations on this occasion will be received in that spirit of justice and fair dealing which has so notably characterized the intercourse of Japan and the United States. Accept, Mr. Secretary, the renewed assurance of my highest consideration.

"TORU HOSHI.

"To the Hon. John Sherman, Secretary of State."

Then followed Secretary Sherman's reply, which has already been published.

## AMERICAN WOMAN BEATEN.

High Feeling in Honolulu Over Work of Japanese Sailors.

Vancouver, B. C., July 6.—The latest mail advices from Honolulu say that Miss Nellie West, an American lady, was severely beaten by two Japanese marines from the warship Naniwa recently, while trying to assist her brother, who had been set upon by a number of men-of-war men from the Japanese navy. She was confined to her bed next morning, and unable to appear against her assailants in court, where they were charged with assault and battery.

Feeling runs high over the matter. A well-known business man knocked down three Naniwa sailors on the street the following morning in consequence.

sequence, while American blue-jackets went hunting for the ringleaders of the Japanese who made the assault. One who was pointed out to them as being guilty was so severely beaten by them that his life now depends on the result of an operation.

## POPULISTS AT NASHVILLE.

National Conference of the People's Party Is Begun.

Nashville, Tenn., July 6.—The national conference of the People's party Monday was marked by several exciting discussions and one fight between delegates. The majority of the delegates are opposed to fusion, and some lively times are expected when the committee on resolutions reports.

The conference met at 10 o'clock in the hall of the house of representatives at the state capitol, with about delegates in attendance, and was led to order by Milton Parks of Tennessee, who said this was a conference of who believe in the principles of straight, and not fusion.

J. S. Bradley of Texas was temporary chairman by acclamation. The conference then took a recess thirty minutes, and meetings of state delegates were held all over the hall to select members of the committee on credentials. When the conference was again called to order, the committee on credentials was announced, and an adjournment to 10 o'clock.

At the afternoon session of the conference, F. D. Wimberly of Georgia responded.

The report of the committee on credentials showed that 355 delegates from twenty-five states were present, as follows: Alabama, 38; Texas, 15; Florida, 14; Georgia, 30; Kansas, 14; Indiana, 12; Iowa, 7; Nebraska, 9; Louisiana, 13; Minnesota, 19; Mississippi, 17; Nebraska, 2; Ohio, 2; New Hampshire, 1; North Carolina, 2; Rhode Island, 1; Tennessee, 14; Texas, 80; Washington, 1; Wisconsin, 1. Total, 355.

The temporary organ was permanent.

During the afternoon number of speeches were made. Jesse H. Pomeroy of Illinois and J. S. Cox of Texas addressed an audience of 400 people at the capitol.

## NOTES TO TAXPES.

Amendment to the Tax Bill Adopted Without Opponent.

Washington, July 6.—Senator Allison, charge of the bill, announced shortly before adjournment the senate Monday night that a vote had been reached that would ask the senate to remain in session tonight, least until bill was reported. The whole of the senate, in promises a test of courage upon the opposition to the bill. Mr. Allison's statement was made another futile effort have been fixed for the vote.

In so respect senate made progress, proposing two amendments—that that amending tax being agreed with little opposition and with the reality of a vote, while the amendment, proposing a tax on land, was withdrawn after a protracted struggle.

Norfolk, Va.—Ruggles Beach, four miles from Norfolk, was the scene of a great storm Monday afternoon. A cyclone cut a swath through large oak grove, felling large trees, twisting them like stems. Frank Chandler, who had both legs crushed by falling trees, both his legs being killed. A dozen horses killed and a large number of cows and carriages smashed in falling wood. The grove contained thousands of people, who were into a panic by the storm.

## Fallen to His Death.

Denver, July 6.—J. S. Cathon, of 126 Street, Cleveland, Ohio, was instantly killed by falling from the top of the Equitable building, a height of 125 feet. He was suffering from asthma, and had been in bed several months.

## Shook a Family Quarrel.

Valparaiso, July 6.—Bert Woodward was Sunday night by his father-in-law, Charles Lybarger, during a quarrel. Lybarger was held to court. Woodward's wound is dangerous.

## THE ADVANCE GUARD AT SAN FRANCISCO

CHRISTIAN ENDEAVORS REACH THE CALIFORNIA CITY.

San Francisco, Cal., July 6.—The advance guard of the Christian Endeavor societies, the stars and stripes, and the bunting hung in honor of the national holiday, float with the breeze in mingling waves of blue and gold, purple and white, with the motto of the young people's organization displayed on every hand.

From the ferries of the Golden Gate, buildings, both public and private, business houses and residences are covered with variegated colors and with inscriptions of welcome. The arch in Market street is the most conspicuous of all the decorations, with its thousands of electric lights.

Probably the total number of Sunday's early arrivals did not exceed 400. Sunday night and early Monday two special trains, containing eighty-five cars and 2,172 passengers, arrived over the Southern Pacific from the Santa Fe alone. Several distinguished delegates are already here, including John Willis Baer, general secretary of the organization, and Tamil, an evangelist from Ceylon, who has made the trip from his Cingalese home specially to attend the convention.

From now until the close of the convention members of the reception committee, which number 1,000, will meet every arriving train and boat and escort the visiting delegates to the convention headquarters in the Mechanics' pavilion. To attend properly to the reception and registration of the visitors the committee will be divided into three watches, each to stand six or seven hours' duty each day.

The railroad company is at a loss to find accommodation for all the cars that will arrive this week. Over 450 Pullman cars are expected.

Central Methodist Episcopal church was crowded Sunday night at the "Christian citizenship" meeting held in honor of the delegates of the Christian Endeavor organization. Representatives of the society from Mexico, Peru, Montana, Idaho, Pennsylvania and Oregon were present. "Christian Citizenship" was the theme.

## MEETING FOR WOMEN.

Special Provision for Enjoyment of Feminine Endeavorers.

Salt Lake, Utah, July 6.—Mrs. Francis E. Clark, the enthusiastic wife of the Christian Endeavor leader, will preside over two meetings for women at San Francisco. One is intended to raise the spiritual standard of the work of the feminine endeavorers. The other address will be to mothers in regard to the religious care of their little ones.

"I have no idea of introducing a distinctive movement among women," said Mrs. Clark. "There are a few societies in the country made up wholly of mothers, but usually the work is for both heads of the family."

## Swept by Tornado and Flood.

St. Paul, Minn., July 6.—A telegram addressed to Gov. Clough from Barnum Sunday night, signed by William Cain, village president, stated that a part of the village had been destroyed by tornado and flood. The governor was asked for aid for building sidewalks and bridges. Specials say that a cyclone, followed by a cloudburst, passed south of Barnum Saturday. The Moose Horn river rose rapidly, and in five hours the water stood three feet deep in every house on level ground, and a raging torrent ran through the main street, compelling every one to make a hasty move upstairs. Several families could not remove their effects. Every bridge in town was washed away, and the streets were torn up completely. The water has subsided, but the town looks desolate.

## Elks at Minneapolis.

Minneapolis, Minn., July 6.—The eleventh annual reunion and grand lodge session of the Elks is now fairly on. The grand lodge session opened this morning, and the chief interest connected with the meeting centers in the election of officers. It is thought that Meade D. Detweiler will succeed himself as grand ruler, although he has a formidable opponent in Charles L. Jewett, of New Albany, Ind., whose claims for the honor are being strongly backed. New Orleans and Louisville are making a big fight for the reunion of 1898, with the chances in favor of the Crescent City.

## Henry B. Stone Killed.

Chicago, July 6.—Dispatches received from New Bedford, Mass., yesterday, tell of the sudden death in a fireworks explosion of Henry B. Stone, retired president of the Chicago Telephone Company, and formerly second vice president of the Chicago, Burlington and Quincy Railroad. Mr. Stone was celebrating the day at his summer cottage in Nonquitt with his family and other residents. He had just arranged his business in Chicago preparatory for an extended sojourn in Europe, and had engaged passage from New York for Aug. 1.

## STRIKE ADVANCING AS THE DAYS PASS

FEW COAL MINERS AT WORK IN THE COUNTRY.

Non-Union Men Also Quit—Not More Than One Thousand Miners Reported for Work Today—Illinois Operator Willing to Pay \$1 a Ton to His Men.

Indianapolis, Ind., July 6.—Nearly all the non-union miners in this state voted Monday to go out with the union men. Reports from the seventeen mining counties indicate that not more than 1,000 men reported for work today. The men in every mining district took advantage of the holiday further to consider the situation, and the meetings everywhere were large and enthusiastic. The non-union men are to be taken into the organization as rapidly as possible, as most of them through their meetings signified a desire to affiliate with the controlling organization. The largest meetings were held in the counties of Clay, Sullivan, Knox and Greene. All the men working in the slopes, supply the clay for the various sewer-pipe and hollow brick plants, were ordered to cease work immediately. The authorities say the danger of trouble will be lessened if the non-union men all go out. The conflicts in previous strikes have been the result of the union men trying to force the non-unionists to quit work.

## He Favors Arbitration.

Pittsburg, Pa., July 6.—The striking miners remained at home Monday to discuss the approaching struggle, while the officials sought their homes for a day's rest before entering on the arduous task before them. It is said a strong effort will be made to arbitrate the wage dispute. Colonel W. P. Rend, of Chicago, one of the members of the board of arbitration of the state of New York, is said to be at the head of this movement. Colonel Rend operates four mines in Ohio and three in Pennsylvania. He has advocated arbitration in all the disputes between miners and operators. It is said that Colonel Rend and his son were the heaviest buyers of coal a few days before the strike was ordered.

## Willing to Pay \$1 a Ton.

Spring Valley, Ill., July 6.—The coal operators of this district now begin to realize that they made a mistake in forcing a reduction in the northern Illinois coal fields with the 1st of May. One of the operators, Charles J. Devlin, who operates mines at Marquette, Luca and Sparta, proved to the miners that there was no necessity for reduction, as he kept his mines going during the months of May and June, paying the old rate. It is said that Mr. Devlin is willing to pay \$1 a ton to the coal miners who will dig coal for him, providing he can get permission from the national executive board of United Mine Workers to allow his mine to be operated under those conditions.

## In the Pittsburg District.

Pittsburg, Pa., July 6.—The great wage struggle of the coal miners was inaugurated throughout the Pittsburg district Monday, but it is impossible to tell anything about the situation as yet, as Monday was a general holiday, and work was suspended in all the mines of the district. Meetings were held in nearly every mining settlement. In speaking of the strike, President Dolan said: "I have every reason to believe that with the exception of a very few mines the suspension will be general. Our men realize that this is the fight of their lives."

## Think Miners Will Go Out.

Terre Haute, Ind., July 6.—The Sullivan and Vermillion coal fields are at work on small capacity, but the operators, as well as the officials of the miners' organization, expect that the action of the block-coal miners, 2,600 strong, in deciding to strike, will stampede the bituminous miners, who are now inclined to work. The block-coal miners, like the bituminous miners of the two counties named, are not members of the miners' organization, but the same motive actuates both fields.

## Coal Famine at Joliet, Ill.

Joliet, Ill., July 6.—Coal dealers in Joliet are perplexed beyond measure to know how they are going to take care of their big customers, who have deluged them with orders. The waterworks have coal enough to last only two weeks. The rolling-mills, Lambert's wire mills, the electric light plant and others on the canal cannot secure water power enough to operate their plants and have to rely on steam, and they have but a limited supply of coal. The miners' strike is a serious fact for them.

## At Work in Iowa.

Ottumwa, Iowa, July 6.—All miners in this district are working. They are poorly organized. No strike is anticipated by the operators.

## Storm Delays Trains.

LaSalle, Ill., July 6.—This city was visited by a cloudburst about 9 o'clock Sunday night. The rain fell in torrents for four hours. The sewers were inadequate to carry off the water, which stood three and four feet deep in the main streets. Stores and cellars were flooded, and the damage is estimated at several thousand dollars. All trains were delayed.

## THE BASEBALL REPORT.

Results of Yesterday's Games Played in the Various Leagues.

Chicago slid ahead of Washington for a few hours yesterday, but fell back into eleventh place as soon as another game gave them the chance. Louisville, by its victory over St. Louis in the single game played, pulled a little farther away from Chicago. Boston gave a double performance of its now familiar act of winning out in the ninth inning. The victims—the Phillies—fell two stages in the standing as a result of the double defeat. The victorious Hubites, who have now won seven games in succession, will be pitted against Chicago Thursday, today and tomorrow being off days.

## President's Mother Injured.

Canton, Ohio, July 6.—President McKinley arose at an early hour Monday morning. He found his aged mother on their front porch and after a short walk with her he went to his room. He had just left her when Mother McKinley met with a serious accident, for one of her age. A piece of straw carpeting slipped as she took a step and she fell to the floor, striking her forehead over the eyes on a doorstep. She was able to arise and walk to a stand where she washed away the blood that flowed from the wound. The President started in haste to secure a doctor. The doctor found the cut so deep as to require sewing up. This she would have done without an anesthetic. At noon she did not seem to be suffering seriously from the shock, and was resting easily.

## To Choose the Commission.

Chicago, July 6.—Chairman Eugene V. Debs of the Social Democracy of America will arrive in the city this morning, and this afternoon the board of directors of the organization will meet and choose the commission which is to select the site for the first colony of the proposed co-operative commonwealth. There is little doubt that Mr. Debs will head the commission, but it is said that the other members will be those who have no connection with the organization but whose sympathies are with the movement.

## Eminent Ohio Lawyer Dead.

Toledo, Ohio, July 6.—John R. Osborne, senior counsel and treasurer of the Wabash railroad up to 1891, when he resigned on account of blindness, died at the residence of his daughter in this city Monday, aged 84. He belonged to a family of politicians, the father having been attorney general of the state for three consecutive terms. Mr. Osborne was one of the best-known corporation lawyers in the country.

## Lumber Company Assigns.

Mexico, Mo., July 6.—The J. F. Crawford Lumber Company filed assignment papers here, subject to creditors holding accounts valued at between \$50,000 and \$60,000. The property is valued at \$75,000.

## Toughs and Plunkers Fight.

Wheeling, W. V., July 6.—One man was murdered and three seriously wounded in a fight at Benwood, three miles below this city, early Monday morning. A party of plunkers who were returning home, were attacked by a gang of toughs. The latter were thoroughly routed.

## MILWAUKEE MEETING OPENED YESTERDAY

EDUCATORS ARE AT WORK AT CREAM CITY.

Six Thousand Teachers Are Now on Hand, and the Rush Has Only Begun—Council Is in Session—The Representation of the States—Drowned at Superior.

Milwaukee, Wis., July 6.—During Monday about 6,000 teachers came in. The convention does not begin until tonight, and the meeting of the national council of education Monday was not an event that interested any of the delegates.

The new arrivals for the most part spent the day in visiting the parks and places of interest. There was no effort to begin work, and the exposition and department halls were deserted.

The opening session of the council of education furnished an exciting debate. Prof. W. H. Bartholomew of the committee on secondary schools made a report, and in the course of his remarks he declared that the tendency in the west was against co-education.

Newton C. Dougherty of Peoria asked what was meant by "the west," and received the reply that it was all states west of the Mississippi. Prof. Dougherty then went on to say that co-education was not meeting with disfavor in Illinois, but on the contrary it was steadily growing in popularity. The discussion was participated in by C. S. Jordan of Minneapolis, J. M. Greenwood of Kansas City, E. W. Coy of Cincinnati and W. A. R. Taylor of Kansas. They all doubted the assertion that the co-educational system was waning in the west.

After the discussion was over it was the general opinion that the committee had not sufficient grounds for the statement that co-education was on the decline. The opinion seemed to prevail that the contrary was true so far as the west was concerned. The rest of the report was accepted and approved. The report shows that the high schools of the country are in high favor and that 80 per cent are both finishing and preparatory.

The report also shows that while 50 per cent of the school population is enrolled in the public school only 6 per cent is enrolled in the high schools and only one-half of 1 per cent of the school population graduates from the high schools.

Following is the representation thus far from several states:

Rhode Island, 50; California, 25; Florida, 50; Colorado, 30; South Dakota, 50, and Louisiana, 20. Missouri came in tonight with 300 delegates, under charge of State Superintendent John R. Kirk. The indications are that the total attendance will exceed 16,000.

## Four Drowned While Boating.

West Superior, Wis., July 6.—A party of several young people started in a rowboat about 3 o'clock Monday for Wisconsin Point, a summer resort which divides Superior bay from the lake. The boat was overloaded and capsized. John Bardon, who was near by with a yacht, saved three members of the party. Four were drowned—Mamie and Christie McDonald, aged 29 and 17 years; Daniel McDonald, the brother, aged 19, and Burton McCree, a freeman on the Chicago, St. Paul & Omaha road. Those who survived are the Rev. A. D. Ingham, Miss Agnes McDonald and Lewis C. Sprague.

## NO CHANGE IN POLICY.

No Basis for Daily Chronicle's Alleged Discovery.

London, July 6.—The statements of the Washington correspondent of the Daily Chronicle to the effect that correspondence is about to be submitted to congress regarding Behring sea matters which will cause resentment in Great Britain, charging bad faith in the carrying out of the terms of the award, etc., are discredited here in diplomatic circles.

Previous to the jubilee celebrations United States Ambassador Hay gave the Marquis of Salisbury a strong presentation of the case from the standpoint of the United States, but throughout the entire correspondence there was nothing to offend Great Britain, and there have been no communications on the subject since the jubilee.

## Glass Workers in Session.

Pittsburg, Pa., July 6.—The twentieth annual convention of the American Flint Glass Workers' union began here at 10 o'clock Monday morning with 150 delegates representing local unions in a dozen states and Canada in attendance. The session was short and an adjournment until today was taken after a temporary organization had been effected in order that the delegates could participate in the Independence day celebration in Pittsburg. Among the matters of importance to come before the meeting is the annual election of officers, reports of the grievance committees, the question of the abolition of the annual convention, the manufacturers' demand for a 10 per cent advance in the chimney moves, the continuation of the unlimited move system in the pressed branch and other technical matters.

At the County Farm.

The patients at the county poor farm and insane asylum marked the day by dedicating a grove across the road from the main building Saturday. The grove is called "Merrill Park," in honor of Hon. S. T. Merrill of Beloit. About two hundred and fifty patients

took part, and music was furnished by the patients' orchestra. Mr. Norton of Beloit, one of the asylum inmates, was the orator of the day. A calisthumpian parade was a feature and the exercises were largely attended, many farmers driving to the building to take part. A display of fireworks closed the celebration which was fully enjoyed by the unfortunates who make their home at the county's retreat.

The A. O. H. Picnic.

The annual ball of the A. O. H. was given at the Armory last evening, and was largely attended. Professor Smith's orchestra furnished the music. Fourth of July Accidents.

Eddie Leahy, son of Mr. and Mrs. T. B. Leahy had his face filled with powder by the premature explosion of a toy cannon yesterday. Dr. St. John attended him. Mr. Leahy then hid the box of powder, but later his other son, Tommy, found it and was playing with it on Center avenue, when a fire cracker fell on it. An explosion followed the lad's eyebrows being burned off and his clothing ignited. Frank Sweeney extinguished the fire on the boy's garments and carried him home where Dr. W. H. Palmer attended him. His burns are extensive and painful.

Phineas Pease, son of Presiding Elder and Mrs. F. A. Pease, accidentally shot himself with a blank cartridge, the wad passing through his hand. Dr. R. W. Edden dressed the wound.

James Bunt, son of Mrs. and Mrs. J. H. Bunt, was burned by the premature discharge of a toy cannon and Dr. Palmer was called to dress his injuries.

Paul Byrd held a giant cracker in his hand too long, and received painful injuries when it exploded. It was as first thought that he would lose one eye, but Dr. Palmer hopes to save it.

HONEST.

FT. WAYNE, Ind.,—

POSTUM CEREAL CO., LIM.,

Battle Creek, Mich.

DEAR SIR:—Please send me one case of the 1-lb. packages, and one case of the 4-lb. packages of Postum Cereal Food Coffee at once.

I do not wish to venture out on this article, as I had no faith in it when you sent me sample; but the people come and ask for it, so sent and got a one-dozen box of Dittos Grocery Co., and it sold readily. We are using it at home with entire satisfaction. Please send them at once.

Yours truly,

HENRY D. NIEMAN.

A reliable grocer will never offer a cheap or weak imitation of a genuine article because he happens to make a little extra profit. But it is well to observe that when genuine Postum Cereal Food Coffee is ordered, that you get Postum and not a spurious imitation offered as "just as good."

ELASTIC STARCH has been before the people of the United States for twenty-three years and is without doubt the greatest starch invention of the Nineteenth Century. Last year its sales reached the unprecedented number of twenty million packages. It is prepared upon scientific principles by men who have had years of practical experience in fancy laundrying. It makes ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beautiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing neither arsenic, alum, or any other substance injurious to linen, and can be used even as a baby powder.

1802—General Daniel Morgan, American Revolutionary hero, died at Winchester, Va. Morgan was a gallant border soldier in the numerous Indian wars of the colony of Virginia. His first service in the Revolution was in Arnold's march on Quebec, where he led a band of picked riflemen, hardy Virginia mountaineers.  
1835—John Marshall, noted chief justice of the United States, died in Philadelphia; born 1755.  
1886—Paul H. Hayne, southern poet, died near Augusta, Ga.; born 1820.  
1892—Battle at the Carmine works, Homestead, Pa., between Pinkerton's men and locked out workmen.  
1893—Guy de Maupassant, a master in the French school of naturalistic writers, died in Paris; born in 1850.

## SIDEWALK SUITS.

Sidewalk damage suits cause as much concern in Milwaukee as in Jamesville. Thousand of dollars are paid out of the treasury each year for broken legs and arms caused by defective sidewalks. The judiciary committee of the Milwaukee council allowed \$1,000 in settlement of a \$1,500 judgment yesterday, and spent the rest of the afternoon discussing the sidewalk problem.

It was decided that the police be required to report defective walks to the ward foremen without delay. The foremen were given orders to be especially careful in inspecting and watching the sidewalks, and to repair defects without waiting for further orders or asking the property-owners in front of the sidewalks for permission. The ward foreman will hereafter be held responsible for defective sidewalks.

The suggestion is made, however, that a more effective course for reducing the number of suits, would be to charge up damage moneys against the ward funds. Such a move would make tax payers careful about the condition of their neighbors sidewalks whether they worried about their own or not.

## TARIFF GRUMBLINGS.

The protests against tariff measures which foreign nations are making are looked upon by experienced legislators and statisticians first as a piece of impertinence, since it is nobody's business but our own what kind of a tariff we make, and, second, as of no consequence in the bearing of our commercial relations with those countries. Thirteen of the fifteen nations from which we have some grumblings as to our tariff sell us vastly more than they buy from us, and while it is all right for them to get as low a tariff on their articles, there is no likelihood that they are going to disturb their markets in this country by any retaliatory legislation which would injure their sales to us more than they effect ours to them. The fifteen countries from which hints of dissatisfaction with our tariff have come, have sold us in the past decade \$4,843,943,523 worth of goods, and bought from us only \$3,059,220,782 worth, a balance in their favor of \$1,784,722,841. It is scarcely probable under these circumstances that they are going to take any steps which will embarrass or complicate commercial relations so advantageous to them.

## A BIGGER WORD THAN "IF."

The omission of the "only" from the tariff plank in their platform of 1896 has led to a sharp interchange of letters between ex-Senator Vilas and Senator Jones. Senator Jones, who denies that the omission had any significance, says the expressions "tariff for revenue" and "tariff for revenue only" have "the same meaning." This is hardly correct. Any sort of a tariff which lets in goods at all can be a tariff for revenue. The McKinley act was a tariff for revenue, although, of course, protection was its chief object. By putting in the word "only" however, the tariff is restricted to revenue purposes solely, and would exclude the McKinley act that was and the Dingley act that is to be. One fact is made plain by the controversy over this word, and that is that the "only" is likely to hold nearly as much dynamite for the democrats in their convention of 1900 as silver did in that of 1896.

Honest people will all cordially support the efforts of Hon. Benjamin Butterworth, commissioner of patents to stop the bleeding of inventors and would-be inventors by crooked patent attorneys. Major Butterworth recently disbarred from practice before the United States patent office, eight attorneys for corrupt practices. The man who offers fabulous prices for "an idea" will find his business less profitable after a little.

Mr. Debs suggests that within a year or two his young colony would be strong enough to elect the legislature in a state like Washington and "secure the use of the state funds for coopera-

tive purposes." Washington folks should be very glad to welcome a colony that proposes to take possession of the state treasury without having contributed a cent to it.

One of the best signs of the times is found in the news columns of the big anti-protection papers like the New York Herald, where the general improvement of business is daily set forth.

Secretary Sherman says he hopes the democrats will make the silver question issue in the Ohio campaign, because he believes it would add largely to the republican majority.

Senator Allen ought to have told how he invested the \$1,500 contributed by Mr. Aryan, in order that the country might have an opportunity to gauge his wisdom as an investor of trust funds.

Ex-Governor Stone of Missouri, was one of the wisest Bryanites who participated in last year's campaign. He spoke and voted for Bryan, but he bet on McKinley, and won a good team.

The Japanese can see by our Fourth of July celebrations that we do not consider it necessary to save our powder to be used in shooting at them.

Are in daily use by street inspectors in New York city. The severe test of a year's continuous hard riding—summer and winter—over cobblestones and the roughest roads—in all sorts of weather—under the most adverse conditions—demonstrates the durability of wheels more conclusively than pastime riding over good roads or track racing by paid riders.

Expert Jamesville machinists are enthusiastic over the Wolff-American's construction. No other \$100 wheel has equalled Wolff-American sales in Jamesville this year.

## COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials that we have lately received:

Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: "Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure."

Major Dean, of Columbus, Ohio, says: "I wish to add to the number of certificates as to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectually cured me."

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

## PICK HANDLE USED ON HARRIS' HEAD

"SASSING" RAILROAD MEN NOT  
PROFITABLE BUSINESS

Man Who Tried To Pick a Fight Was  
Accommodated, After He Had Been  
Warned To Go About His Business  
— He Was Taken To Jail and His  
Wounds Dressed.

It doesn't pay to "sass" a gang of  
railroad men. Charles Harris, a resi-  
dent of this city, started out on foot  
this morning to look for trouble and  
before he had been gone an hour, he  
had found it, and was in jail with his  
head cut.

Harris is a man of about forty-five  
years of age; a mason by trade; and a  
boarder at the Highland House; where  
he has an excellent reputation. At 10  
o'clock this morning he started to  
walk towards Evansville via the C. &  
N. W. "out off" line. When about  
a mile from the city he met a gang of  
men who are working for the Northwestern  
road, building culverts. Harris, it is  
said, tried to pick a fight. After Har-  
ris had been warned to go about his  
business, and refused, one of the men  
banged Harris over the head three  
times with the handle of a pick ax.  
Harris dropped to the ground and lay  
like a dead man. A telephone message  
was then sent to the city, for the  
fire patrol. Chief Hogan and Dr. J. J.  
Whiting also answered the call. They  
found that Harris was not much hurt,  
and after telling his part of the story,  
was arrested and brought to jail, where  
his wounds were dressed.

The patrol made a quick trip to the  
scene, the telephone message saying  
that a man was "bleeding to death".  
Harris had gone to the river and  
washed his wounds before the patrol  
arrived.

Al. Stone was fined \$10 and costs  
the municipal court this morning, to  
charge against him being assault and  
battery. Miss Alice Kelly was  
complaining witness.

## WILD CHICAGO BOYS CAUGHT

Two Lads Are in Jail Awaiting  
Adm. From Illinois City.

Oscar Gregory, aged ten years, and  
Willie Metzker, aged fourteen years,  
both residents of Chicago, are now  
in the bars of the Rock county jail,  
charged with running away from home.  
Both boys were arrested last evening  
at 10:30 o'clock at the Northwest  
freight depot, by Sheriff Achesson and  
Turnkey Samuel Brown. Neither  
looks to be a year older than the  
other, but when it comes to swearing  
they can demonstrate that they are old  
experience at least.

Gregory, the more talkative of  
the two, told an interesting tale of  
troubles. He said that on last Sat-  
urday he left the Worlds Fair City in  
a box car to catch his first view of  
Paul, but Sunday being the Fourth  
he decided that the event should not  
be celebrated in a common cattle car.  
Before taking the train, Greg-  
ory says, the other lad, a total stran-  
ger, presented himself and gave him  
a ride. Then the two decided to migrate  
to the Wild West grow up with the  
country. On reaching this city they  
decided a night's rest was what they  
needed, so they stored themselves away  
in a Northwestern freight house, and  
they were discovered by men who  
telephoned for the police.  
On reaching the jail the boys  
were delighted at the thought of  
being there three times a day and to  
be able to sleep at night. Metzker  
formed Sheriff Achesson that he, until  
a few weeks ago, a prisoner in the  
Industrial School at Joliet, Ill., and  
that when the opportunity presented  
itself, he made good.

Gregory says that he is an  
archer, and that he received a  
mail in Chicago.

The Chicago officers have be-  
lieved of the arrest.

## SHERE COUPLES ME HERE TO WED

SERVICE PERFORMED  
TNDAY MORNING.

Robert C. Denison United the  
Young Folk, and They Had  
To Keep It a Secret Until  
Are Sons and Daughters of  
Known Residents.

Shopiere couples came to  
Janesville and were married Sunday  
morning. They were:  
Mr. Dextater and Miss Fannie  
Harris and Miss Jennie Atkin-  
son.

Harris and Mrs. Dextater are  
sisters, and all four of  
the couples are well known at Shc-  
they have been "keeping com-  
pany" some time, and finally de-  
cided to celebrate the Fourth by get-  
ting married. Accordingly they drove  
city. Ten o'clock found them  
at the Congregational parsonage,  
and a few moments later Rev.  
C. Denison had spoken the  
words that made the two twains two.  
The ceremony was a "double one" as  
the wish of the contracting  
couples.

At the ceremony the happy  
couples enjoyed an elaborate dinner  
at the local hotels.

By had planned the affair as a  
secret and it was their wish to keep  
the wedding secret until this fall.

matter now stands the prospects are  
not very good. The society is deep in  
debt and but little hope is held out  
for the future. About one-half of the  
stockholders have answered the call  
and paid the assessment levied. Sec-  
retary McKee this morning said that  
the matter had now reached a crisis  
and that the meeting called for Sat-  
urday was for the exclusive purpose of  
getting the opinion of those interested.  
The premiums for last year's fair have  
not been paid, and several other dif-  
ficulties must be surmounted.

One Dose Effects a Cure.

Newly-Married Husband (home late  
for the first time)—I know I'm a little  
late, Alice, dear. You really shouldn't  
sit up and wait supper for me, darling.

Newly-Married Wife (with withering  
scorn)—Supper, dearest; it's too late  
for supper. I've laid the breakfast ta-  
ble!

He never did it again.—Tit-Bits.

A Tinge of Jealousy.

"I hear," said one man, "that the  
president has filled the place that you  
thought was well adapted to your ca-  
pacities."

"You are misinformed," was the re-  
ply, with a manner of studied hauteur;  
"he has appointed another man to the  
position, but he hasn't filled it."—  
Washington Star.

Two's Company.

Mother (to her little girl)—It's very  
cruel, indeed, of you, Dolly, to hurt a  
poor innocent worm like that.

Dolly — But, mamma, he looked so  
lonely all by himself, and I just cut him  
in two so he'd have company, and the  
two of him giggled off together, just  
ever so happy.—Pick-Me-Up.

Ohio's Quota Fails.

Office-Seeker (on being present-  
ed to President McKinley) — I am  
afraid you do not remember me, Mr.  
President. I am an Ohioan and met you  
at—

## No Confusing Environment.

Miss Edith (to evening caller)—When I write I have to be entirely alone and have everything quiet, so there will be nothing to disturb my thoughts. I don't see how anyone can dictate to an amanuensis.

Mr. Goodfellow—It's very easy. I dictate all my business letters.

"You do? And don't your thoughts often wander from the subject until you find yourself unable to proceed?"

"Oh, no. My typewriter is a man."—N. Y. Weekly.

## Strong Proof.

"Do you notice anything peculiar about Tommie lately?"

"No; what is it?"

"I'm afraid one of those girls in his class must have fascinated him."

"What! Tommie in love? Why do you think so?"

"Because he took a bath last night without grumbling."—Cleveland Plain Dealer.

## Her Favorite.

"My favorite march?" she repeated, shyly.

"Yes," he said. "That is what I asked you."

"Oh, most any old wedding march," she answered.

Shortly thereafter arrangements were made that will result in a wedding march being played a little later.—Chicago Post.

## He Took the Hint.

"Can you play 'The Maiden's Prayer'?" he asked.

"Why, yes, I can," she replied, wearily, "but what's the use? You probably wouldn't answer it."

Then it was after a few moments of deep thought he decided that he never would have a better opportunity to propose.—Chicago Post.

## A Pair of Them.

Borrowit—Say, Jack, can't you lend me five?

Hardup—Sorry, I'm busted myself. I just borrowed ten.

Borrowit—Well, my eyes! You're a fine kind of hog to refuse after such luck as that!—N. Y. Truth.

## He Would Try.

It was a children's party, and supper time. Little Tommy Tucker had eaten and was filled, but he would not give in.

"Have some more cake, Tommy," said his hostess.

"I think I could," said Tommy, "if I stood up."—Pick-Me-Up.

## He Was Mistaken.

Son—I think I'd like to be a lawyer, father. There's a good deal of money passes through a lawyer's hands, isn't there?

Father—He never lets it pass through if he knows his business, my son.—Richmond Dispatch.

## A Sympathetic Chord.

"What did you do with that kleptomaniac in your literary club?"

"We didn't do anything; she made us all weep by confessing that she had been led astray by having to pick her husband's pockets for pin money."—Chicago Record.

## All the Returns Not In.

"What system are you going to adopt in raising your baby, Mrs. Youngly?"

"I'm undecided. There are two or three women in the block who haven't given me their opinions yet."—Detroit Free Press.

## One of Time's Changes.

Edith—I hope he didn't make a speech when he proposed to you.

Maud—Why, no; he was so nervous he could hardly speak.

Edith—Poor boy! He's a better lover than when I first knew him!—N. Y. Truth.

## Cheap Real Estate.

He put a penny in the plate each Sunday, did this man.

To buy a mansion in the skies on the installment plan!—N. Y. Truth.

## A GOOD BEGINNING.

Habitual Toper—What you shay, shir, ish very true; but this ish the first time I have ever had too much.

Parson—Then allow me to congratulate you, sir, on a marvelous success for a first attempt.—Pick-Me-Up.

## No Occasion for Grief.

If a scorching meet a scorcher whizzing on the fly,

And a scorching hit a scorcher No one needs to cry.

## The Brute's Latest.

Mr. Crimmonbeak—That dog next door is mad, I understand.

Mrs. Crimmonbeak—Perhaps he came home to his dinner and it wasn't ready for him on time.—Yonkers Statesman.

## About the Same Thing.

Brown—Did your wife cross-question you when you got home the other night?

Jones—My cross wife questioned me.—Philadelphia Press.

## Saved by the Office Boy.

Editor—Man wants to see me? Well, show him up.

Office Boy—Not on yer life. He says that's what you did, and he's after you.

## A Fruitless Search.

Mamma—What are you taking your doll's bedstead apart for, pet?

Little Dot—I's lookin' for bugs.—N. Y. Weekly.

## Care of the Icebox.

The care of a refrigerator involves more than the obvious necessity of seeing that, with the approach of hot weather, no accumulation of food is allowed to spoil therein. A prudent housewife will likewise direct that the ice itself, in extreme heat, be covered with newspapers, than which there is no better preventive of its rapid melting away. She will see that the shelves are frequently scoured and kept perfectly sweet, but that no hot water is employed for this purpose. She will give orders that the drinking water be cooled by being placed under the ice, and not by having the ice put into it. And, last of all, she will endeavor to convince the maids that there is no magic preservative on top of the refrigerator and that that particular spot is quite as warm as any other part of the storeroom; also that the coolest place in the box underneath is underneath the ice—that is, on those shelves beneath it—and not, as so often supposed, on top of it. Thus anything placed over the cake of ice is much warmer than what is put away within the refrigerator.—St. Louis Republic.

## Women Silk Weavers.

A curious extract, taken by Mrs. Stapes (in a recent historical work) from the parliamentary rolls of the time of Edward IV, records that a petition had been sent from the guild of "silke women and throwsters" of the "craft" and "occupation of silke work in the cite of London, which be," it goes on to state, "and have been crafts of women within the same cite of tyme that noo mynde remeth to the contrarie, and nowes more than a 1,000 in number—these praying for protection against the introduction of foreign manufactured silke goods."

This quaint petition, recorded in the parliamentary rolls of 1463, is curious as showing the efforts and status of women of those days, before statistics existed and when the doings of women were for the most part unrelated and unnoticed. As a matter of fact, however, the women succeeded for the time being in gaining what they asked for, and various acts were passed for the protection of their trades and guilds down to the reign of Henry VII.—Jennie June Croly.

## Woman Suffrage in This Country.

The total number of women registered and thereby entitled to vote on the suffrage question at the Massachusetts election held Nov. 3, 1896, was 39,242. Of this number only 23,068 voted. The vote was as follows: In favor of female suffrage, 22,204; against, 864. Women voted on equal terms with men in Wyoming under the territorial constitution from 1870 until 1890, when Wyoming was admitted into the Union. The state constitution, containing the clause for woman suffrage, was ratified by the people before admission. In Kansas women have the right of suffrage in municipal elections. In 1891 over 60,000 women voted in the state. In many of the states of the Union school suffrage exists for women. Women in Montana who are taxpayers have the same rights at the polls as men. By popular vote in Colorado in 1893 there was a majority of 5,000 in favor of woman suffrage.—Boston Transcript.

## Picnic Tea.

There is nothing better to take to a picnic to drink than cold tea which has been steeped five or six minutes—tea is one of the things which can be satisfactorily steeped "to taste"—then poured off the grounds into a bottle, and when cool tightly corked. It should not be strong. Taken without milk or sugar, it is very refreshing. An old woolen stocking leg, if such a thing can be found, or a piece of flannel sewed up to fit the bottle, is valuable to cool the tea, if there is any water in the vicinity of the picnic ground. Dip the bottle with its wool covering in the water, hang it on a tree, or even standing on the ground will do, and as the water on the outside evaporates the contents of the bottle will cool.

## Linen Afternoon Costumes.

The afternoon costumes of ecru linen, grasscloth or tan colored Holland are distinctly different from the popular morning suits of duck and linen twill, with open fronted jacket shirt waist, as they are made up in much more ornate style, though they are of simple cut, as all day gowns should be. They consist of a box plaited, belted round waist, close sleeves, with tops puffed and trimmed with insertion, and the skirt has insertions of linen lace above the drop hem. On very slender figures the waist is crossed with Breton bands of the insertion, with a band encircling the shoulders in yoke shape. The gloves, hat, parasol and shoes are of white or ecru, matching the tint of the linen lace.

This has been our regular dollar line. This year we are able to cut the price squarely in two. It will pay you to lay in two or three extra suits.

Our prices are right on stylish clothing, made by skilled Union tailors.

## Suits and Trousers

We will have two prices for our work—a union price, and also another. The other will be from \$4 to \$6 less. We prefer to get the union price and have the garments made here at home, but if you want to save the difference we can send it away and will guarantee the fit and the work.

We cut, trim and try on here. Our cutter has been with us long enough to prove that he is a first-class, up-to-date stylish workman. Ours is a union shop. We make this statement to offset the impression that some have that we are opposed to unions. You will get full value every time you deal with
